Minister for Primary Industries, Steve Whan, today announced a contract has been awarded for $115,000 to undertake the replacement of two retaining walls at Eden Harbour.

“Local company, Guideline South Coast Pty Ltd, will replace a 60 metre retaining wall on the southern side of the Marine Discovery Centre, parallel to Weecoon Street,” Mr Whan said.

“A smaller wall will also be constructed on the northern side of the same building.

“The existing timber wall on the south side of the building has passed its intended service life and will be replaced with a concrete crib retaining wall.

“Fencing will be erected along the top of the structure for public safety and to maintain security to the adjacent building.

“Work is expected to commence later this month and be completed in March.

“This project demonstrates the Keneally Government’s commitment to fulfilling the priorities in the NSW State Plan by maintaining and investing in coastal infrastructure.

“Eden is one of 25 coastal harbours in NSW coast maintained under the Land and Property Management Authority’s Minor Ports Program,” Mr Whan said.
