BEGA CARAVAN PARKS HANDED BACK TO LPMA

Crown Lands General Manager Graham Harding today welcomed the decision by Bega Valley Shire Council to hand back the management of three Crown caravan parks to the Land and Property Management Authority (LPMA).

“LPMA has worked closely with Bega Valley Shire Council to reach agreement on the future management arrangements for the three caravan parks that are located on Crown reserves at Bermagui, Eden and Tathra,” Mr Harding said.

“The Authority’s expertise in managing caravan parks will ensure that these facilities are progressively developed and maintained to a standard that will provide a quality and a diversity of accommodation types to satisfy the needs of holiday makers.

“Any income generated from these caravan parks will go back into the Crown reserve system to help with the ongoing management, maintenance and upgrading of these vital public assets.

“I would like to thank Council for its work in running the caravan parks and look forward to it continuing to work closely with LPMA to achieve a positive outcome for the whole Crown reserve system on the far south coast of NSW.

“The parks are among around 260 Crown land caravan parks owned by LPMA around NSW,” Mr Harding said.
